

1. To get the Patient **Mobile** App iOS go to the App Store or to the Google Play store if you have an Android Device

2. Search for "SnapMD" or "virtualcare" in the search area. Then download the app to your device

3. This icon will appear on your device. If you have never registered for SnapMD previously, then click on “Need an account? Start by finding your service provider.” Then type in Decatur Pediatric Group

4. If you have previously registered, then enter your email address that is on file with the practice. **Please note that the email address and phone number must match the records on file with the practice or you will have difficulty having a telemedicine visit.**
